Accounting and Business Information Systems

**New features at a glance**

# increased availability increased scalability

Welcome to **axis® diplomat 2014**! This release is the culmination of the past two years of development work since the launch of **diplomat 2012** and, for this release, we have focused on two goals - availability and scalability.

You asked us to increase the availability of **axis® diplomat** so we eliminated the requirement to take **axis® diplomat** offline to take a backup and we eliminated the need for users to exit the system in order to allow accounting ledger period end functions to run.

Below are some of the key developments in **axis® diplomat 2014** but our New Features Overview lists 149 separate developments and even that list is not exhaustive! For further information please visit [www.axisfirst.co.uk/software/axisdiplomat/upgrades](http://www.axisfirst.co.uk/software/axisdiplomat/upgrades)

## UPGRADE TO AXIS® DIPLOMAT 2014 AT NO ADDITIONAL COST WITH AXIS® SOFTWARE ASSURANCE

Customers with **axis® software assurance** are entitled to an upgrade to their software licence to **axis® diplomat 2014** under the terms of their agreement.

To request an update to **axis® diplomat 2014** please visit our web site at [www.axisfirst.co.uk/software/assurance/](http://www.axisfirst.co.uk/software/assurance/) and follow the link to request their upgrade, and then don't forget to contact us to discuss your training requirements.

If you would like to find out more about **axis® software assurance** this can also be found on our web site at [www.axisfirst.co.uk/software/assurance/](http://www.axisfirst.co.uk/software/assurance/)
