

## axis diplomat 2020 eBusiness Modules

# eBusiness Attachments

Extend the **axis vMerchant** Interface to manage downloadable attachments (such as PDF documents and ZIP files) assigned to stock items and eBusiness Groups.

This module brings together the maintenance of attachments within **axis diplomat** with the downloading of files from your website in a simple, non-technical way.

### Example Uses

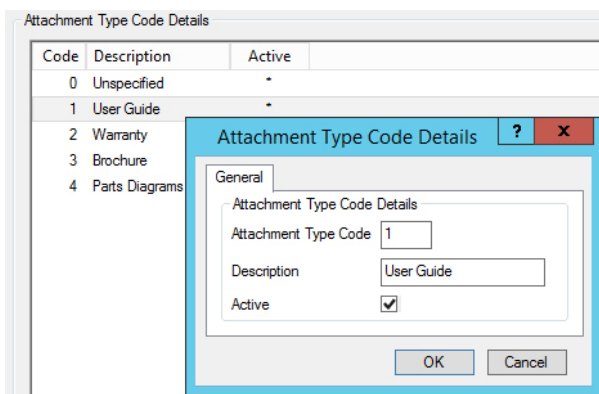

PDF manuals, COSHH sheets, specification sheets and a host of other documentation can be added to individual stock items or to groups of items.

It is also possible, by constructing a "downloads" page, to build sets of downloads (perhaps driver or utility software downloads or PDF documentation) that are not directly related to the products that you sell by associating those files with eBusiness groups within your eBusiness catalogue.

### eBusiness Attachment Types

In order to allow your website to differentiate between various types of attachment, you can define a number of eBusiness Attachment Types via a Stock Ledger maintenance function (just as you would maintain Product Groups, for example).

Depending on how your website has been designed and built, there could, for example, be a different icon associated with each eBusiness Attachment Type.

## Publishing

Both the manual and automated publish routines that are used to update other aspects of your **axis vMerchant** website(s) will also update any published file attachments - but only those that have changed and need updating. This means that the eBusiness Attachments module adds virtually no overhead to the upload process unless published attachments have actually changed and need re-uploading.

## Publishing Attachments

Having attached files to stock records (or eBusiness groups), a simple right-click allows the Publish Settings to be configured - specifying the description for the file to be used on the website and the type.

The screenshot shows the 'Stock EGPLMOW4' interface. The 'Attachments' section contains a table with the following data:

Filename	File Type	Size	Date Modified
EGPLMOW4 Brochure.pdf	Adobe Acrobat Document	274KB	30-12-2015 15:45:36
EGPLMOW4 Manual.pdf	Adobe Acrobat Document	129KB	30-12-2015 15:50:12
EGPLMOW4 Parts		616KB	30-12-2015 15:52:08

The 'Publish Settings' dialog box is open, showing the following configuration:

- General
- Published:
- Description: Wimbledon Mower - Manual
- Type: User Guide

Buttons: OK, Cancel
